CORE
VALUE 

**INTEGRITY
FIRST**

Integrity is a
character trait
- it is the
willingness to
do what is
right even
when no one
is looking.

Lt. Col. Edward Michael, aerial port officer at Lajes, presents a letter of appreciation to Avelino Ormonde in 1964. Ormonde retired from the base in 1991. The terminal was dedicated to Michael because of his actions in WWII which earned him the Medal of Honor.

Terminal dedicated to *Medal of Honor recipient* *Lt. Col. Edward Michael*

Lajes Field honored one of its own Thursday when the 629th Air Mobility Support Squadron dedicated its newly renovated passenger terminal to the late Lt. Col. Edward Michael. Michael, who received the Medal of Honor for his actions in World War II, was stationed as the aerial port commander here between 1964 and 1966.

President Bill Clinton sent a message which reads:

Warm greetings to all those gathered at Lajes Field in the Azores to dedicate the new Lajes Passenger Terminal in memory of United States Air Force Lieutenant Colonel Edward S. Michael.

America's veterans have served our country valiantly, and this terminal will stand as a lasting reminder of the great debt we all owe to those heroes who, like Colonel Michael, laid the foundation for the peace and freedom we enjoy today. We will always remember the supreme determination, valor and skill shown by our men and women in uniform, even as they faced daunting adversity. On behalf of a grateful nation, I express deep appreciation for Colonel Michael's selfless service, and I join you in paying tribute to his courage and devotion to duty.

Best wishes to all for a memorable ceremony.

Bill Clinton

The First Lady will visit Lajes Sunday evening. Everyone is invited to welcome her to the island outside the Portuguese terminal. Listen to AFBS for more details.

No phone bills to be deducted in June or July

Due to a catastrophic equipment failure with the base telephone billing system, there will be no Class B telephone charges collected for the next 30 to 45 days. If the system equipment is returned from maintenance as expected by early August, June and July telephone bills will be processed and deducted from their August end-of-month pay.

People should be aware that any chargeable calls (99+ access) made during this time-frame will be deducted from your military pay. People should make plans to ensure they will have enough money to cover financial obligations after the phone bill is deducted from paychecks. For U.S. civilians who are departing Lajes, the accounting and finance office (AFO) will bill you at your next duty location.

The 65th Communications Group is actively pursuing resolution of this problem with the billing system vendor. For more information, call Avelino Ormonde or SrA. Manuela Sousa at Ext. 23300 or 23912.

Eberhart takes over as service vice chief of staff

SSgt. Michael Dorsey
Air Force News Service

WASHINGTON — The new vice chief of staff of the Air Force assumed his duties in a Pentagon ceremony July 11. Gen. Ralph Eberhart succeeded Gen. Thomas Moorman Jr. who retired after 35 years of service.

A week earlier, Eberhart received his fourth star from, Air Force Chief of Staff Gen. Ronald Fogleman.

"It is quite a coincidence that 29 years ago this month another General Moorman [Lt. Gen. Thomas Moorman Sr.] handed me my diploma and commission," Eberhart said at the promotion ceremony. "This means so much to me. As I look around the room, three things come to mind: mentors, opportunities and friendship."

After paying tribute to leaders who helped shape his career, he acknowledged those who supported him.

"When you think of mentors and friends, you come full circle to family. Everything is a team effort."

Eberhart was most recently the commander of U.S. Forces Japan, and 5th Air Force at Yokota Air Base where he served as the senior U.S. military representative in charge of all Air Force units in Japan.

Fogleman said the Air Force should be proud to have its newest member of the Air Staff. "He's a proven leader and has excelled at every level of responsibility," Fogleman said. "I have every confidence he will step up to the challenge because he is that kind of dedicated individual."

Eberhart, according to Fogleman, will be responsible for "keeping the Air Staff focused on the mission and run the day-to-day Air Force operation in concert with commanders of major commands."

Escorting procedures

I recently brought an American friend, who is not in the military, with me to the base so I could run some errands. I showed my ID card at the gate and the (new) gate guard asked for hers as well but she only had a civilian ID. I had to leave her at the gate. She's been on base with me before and was never questioned. Where is the consistency?

Since this is a Portuguese air base, entry procedures are governed by our Portuguese hosts. If you want to sponsor an individual on base, you must obtain a Provisional Portuguese Pass from the 65th Security Forces Squadron Pass and Registration Section. Pass and Registration is actually the "go between" who does the paperwork to help you get the pass. Only E-5s or GS-5 civilian equivalents and above are allowed to sponsor individuals on base.

If you're eligible, and want to sponsor someone on base, you must request the pass seven to 10 days in advance. This allows processing time through Air Base No. 4. You can sponsor a maximum of five visitors at a time for a maximum of 30 days. If you need to extend beyond the 30 day period, you must request the extension in writing through the 65th SFS Pass and Registration section. They will in-turn route the paperwork to AB No. 4 pass and ID section for approval.

Why you were allowed to bring someone on base at another time, we cannot say. If anyone has any problems or questions regarding this subject, call pass and registration at Ext. 23611.

The bottom line is that our Portuguese hosts control entry and we coordinate extensively to know their requirements.

101 Critical Days

Use caution when jogging

Joe Raposo
Ground safety manager

Writing about safety isn't easy, especially if the topic is jogging. First, let's start like all safety articles do with the do's and don'ts of jogging on roads.

Joggers do most of their running on the streets because Lajes doesn't have a track. A jogger's speed and lesser attire make them less visible to traffic. Jogging also comes with its own set of natural injuries so take precautions to prevent accidents.

Stay on the sidewalk. Unless you're wearing a bumper around your knees, you can't compete with traffic for space on asphalt. Joggers on busy roads, such Rua 25th of April or Rua do Imeprio, antagonize and are antagonized by drivers, making

it worse for everybody. If you're jogging and a car approaches without giving you space, don't try to "hold your ground." Swallow your pride and give the vehicle the right-of-way.

Jog facing traffic and when crossing a road, use the "look thrice" rule. This means looking for traffic coming from the direction closest to the curb, looking the other way, and then checking again in the direction closest to the curb. The "look thrice" rule will eliminate many hazardous situations which were not caught at first glance. In crosswalks, the Portuguese Road Code only requires drivers yield right-of-way to pedestrians who have already entered the crossing.

Finally, don't jog with a portable radio or music-player under any circumstances.
